QUARTER CENTURY
WIRELESS ASSOCIATION, INC.

Founded 1947

YEAR BOOK

FOR 1953

FOREWORD

In the short span of six years, the Quarter Century Wireless Association, Inc., based on an idea and an ideal of its founders, John Di Blasi, Uda Ross, John Gioe, Edwin S. Crane, Irving R. Groves and Dr. Ernest Cyriax, has grown from an original little nucleus of old timers in amateur radio to its present stature of more than six hundred members. This represents a cross section of the whole field of men who make amateur radio their hobby. It is clear that the concept of its founders for an association which would bring together leaders of amateur radio in the United States and abroad was sound.

The association had its inception during a 10 meter round table on Friday night, November 14, 1947, at which time the founders decided that they should meet with other old timers and form an association of amateur radio operators who had been licensed for twenty-five years or longer. The first official meeting was held on Friday evening, December 5, 1947, at which thirty-five old timers were present, and the Quarter Century Wireless Association, Inc., was formed and officers elected.

John Di Blasi, W2FX, was elected President; George Droste, W2IN, Vice President; Leon Hansen, W2FIT, Secretary; and David Talley, W2PF, Treasurer.

The following charter members were present on that occasion:

W1HRX, W2BW, W2KR, W2AMJ, W2AMB, W2EF, W2RB, W2EA, W2CO, W2LFR, W2CVF, W2FD, W2BJ, W2GX, W2DX, W2UD, W2FO, W2EC, W2IH, W2FZ, W2YW, W2PL, W2MM, W2BT, W2KW, W2OG, W2BR, W2WZ, K2CM, and W2GG.

By the end of 1947 our charter members numbered fifty four, and today we pay tribute to those men whose vision, ideology, and guidance has helped our association through its formative years.

Today we have over 600 members located in every call area of the United States and several in foreign countries, also we have established Chapters in Cleveland and Louisville.

At the association's semi-annual dinners, the world's greatest in amateur radio have addressed the members and their guests. The association has steadfastly maintained its nonpolitical and noncontroversial character, and takes general interest in all matters affecting or involving amateur radio, and is ready to sponsor such action as may be deemed proper in their interests. It is our purpose to foster and develop friendship and cooperation among amateur radio operators of more than twenty-five years standing. The devotion of its officers and directors, and the hard work of its staff, account for its phenomenal success and have led to the fulfillment of the purposes for which it was formed.

JOHN DI BLASI, W2FX

THE HAM

*Way back eons of years ago,
When God created the world we know,
He planted a something in the air,
A something no one knew was there,
Until in Nature's wilderness,
Man found and harnessed wireless.*

*Yes, Nature is a wilderness,
Filled with wonders that none can guess,
Of unearthed treasures in its store,
Buried in air or earthen core,
Lying concealed so none can find,
'Till God prepares the human mind.*

*Some folks think that scientists,
Discovered all knowledge that now exists,
Of Wireless, Radio, and kindred arts,
But myriad hams, with home made parts,
Developed and proved, and cut, and tried,
In ways that cannot be denied.*

*And that's what Wireless Hams are for,
To cut and try and to explore,
The hidden paths to Nature's store,
Cutting, trying, searching o'er,
Theories old, or theories new,
Ever building—Never through.*

*Hams may be Doctors, or Engineers,
Lawyers or Merchants, yet pioneers,
Working in so called Wireless shacks,
With bread board sets, or costly racks,
With no glory given—No flags are raised,
And seldom is he ever praised.*

*And yet through fifty years in Wireless,
The ones I've found most tireless,
Are Hams who cut, and try, and yet,
The only pay they ever get,
Is lure, and pride in what they do,
To bring more knowledge into view.*

*And as with microphone or key,
Their signals fly o'er land and sea,
They thrill to mastery of power,
That lets them fly from Tower to Tower,
Exploring this, or that country,
With voice and personality.*

*Hams have a something that's worth a lot,
An inner something, that can't be bought.
It's memory of effort and work well done,
Of much accomplishment, along with fun,
And the things that matter—the things that last,
Are the happy milestones of the past.*

*So let us thank the Lord that we,
Have been a part, and lived to see,
Wireless—Radio—TV—grow,
Until it spans the world, and so,
Let's shape its use to God's great plan,
Of "Peace on earth, good will to man."*

This is written to my partner, John Di Blasi and to happy memories of the 22 years that I have had to listen to the thousand and one transmitters and aerials he has built (verbally).
